

ASHRAFUL HAQUE AKASH

Full Stack Web Developer | Computer Science & Engineering | BRAC University, Dhaka
ashraful.haque.akash.w@gmail.com | Dhaka, Bangladesh | ashrafulhaqueakashw-create.github.io/My_Portfolio | github.com/ashrafulhaqueakashw-create

CAREER OBJECTIVE

Computer Science student at BRAC University with foundational experience in full-stack web development through self-driven academic and personal projects. Currently at an early stage in my career and eager to learn from experienced professionals. Looking for an internship where I can contribute, grow under mentorship, and turn classroom knowledge into real-world skills.

EDUCATIONAL QUALIFICATIONS

B.Sc. in Computer Science	2023 – Present
BRAC University, Dhaka CGPA: Ongoing	
Relevant Courses: Software Engineering, Computer Networking, Data Structures, Algorithms, Database Systems, Operating Systems	
Higher Secondary Certificate (HSC)	2021
Bangladesh Noubahini College, Dhaka Science Group	
Secondary School Certificate (SSC)	2019
Kurmitola High School and College, Dhaka Science Group	

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript, Python, C, C++, Java, HTML5, CSS
Frameworks:	React.js, Node.js, Express.js, Tailwind CSS
Databases:	MongoDB, MySQL, PostgreSQL
Tools:	Git, GitHub, Docker, VS Code, Cisco Packet Tracer, CI/CD
Networking:	IPv4 Routing, DHCP, NAT/PAT, Static & Distance Vector Routing
Concepts:	OOP, Design Patterns, REST APIs, MERN Stack, SDLC/Agile, Performance Optimization
Specializations:	E-Commerce Development, Cross-Platform Web Apps, AI API Integration

PROJECTS

SurveyHub – Full-Stack Survey Platform	2025
- MERN stack web application for creating and managing online surveys with real-time result analytics - Implemented JWT-based authentication, dynamic form generation; React/Vite frontend with Node.js/Express backend and MongoDB	
Maison Store – E-Commerce Clothing Website	2025
- Full-stack e-commerce platform with luxury dark editorial aesthetic built on the MERN stack - Features: product listings, user authentication, cart management, order processing, and responsive design	
E-Commerce Platform (Production-Grade)	2024
- Built a production-ready e-commerce platform engineered to handle high-traffic daily load with optimized performance and secure payment processing (Stripe integration) - Implemented advanced product filtering, real-time inventory management, and fully responsive UI	
Task Management Application	2024
- Developed a collaborative enterprise-grade task management system using Vue.js, Express.js, PostgreSQL, and WebSockets - Supported real-time updates, team management, and an advanced analytics dashboard	

- Federal Flight Agency Network – Cisco Packet Tracer**2024
- Configured multi-branch network for CSE421 assignment; responsible for the Maintenance Hangar branch
 - Implemented DHCP, static routing, serial/Gigabit links; achieved full end-to-end connectivity and verified via ping, web, and email tests

EXPERIENCE & ACTIVITIES

- Freelance Web Developer**2024 – Present
- Developed custom full-stack websites for clients with focus on performance, clean code, and user experience
 - Integrated AI APIs (Anthropic Claude) into client projects, enabling intelligent automation and conversational features
- BRAC University CS Club – Member**2023 – Present
- Participated in coding competitions, hackathons, and tech workshops; collaborated on team-based development challenges

LANGUAGES

Bengali – Native | English – Fluent
